

GLOBAL WARMING

If nothing is done to stop it,
Ventura County's coastline could look like this by 2100!

On November 3rd, Americans will demand real leadership on global warming. From coast to coast, we'll rally in our communities and invite our politicians to join us. We'll see who rises to the occasion and who has a real plan to tackle the defining challenge of our time. One year before the election, let's make sure the world witnesses our national call to action!

Join **Ventura and Conejo Valley Audubon Societies**

from Noon to 2 PM at Harbor Cove Beach in Ventura Harbor
